Advanced Management of Diabetes for RCHC Health Care Providers

Improve your diabetes care skills by learning from regional experts. In partnership with UCSF, scholarships are being offered to RCHC health center clinicians to participate and receive content and CMEs on diabetes management.

Program Description

Participants will:

1. Complete 2¼ hours of online videos

- ❖ *Type 2 Diabetes Pharmacotherapy with Dr. Lisa Kroon*: Overview & Oral Meds (37 min), Incretin-Based Therapies and non-insulin injectables (16 min) & Summary (26 min)
- ❖ *Insulin with Dr. Sarah Kim*: Basics (12 min), Insulin Initiation and Basal Optimization (13 min) & Starting Prandial and Correctional insulin (30 min)

2. Take post tests to confirm your knowledge

3. Submit a case from your practice

4. Finally, attend the in-person session with Maureen McGrath

- ❖ Friday, November 9, 2018 9-11am at RCHC, 1310 Redwood Way, Suite 135, Petaluma

Registration information to come!

UCSF Faculty

Sarah Kim, MD is an Associate Professor with the Department of Medicine at UCSF. She completed her Residency in Internal Medicine & Pediatrics and Fellowships in Adult Endocrinology and Advanced Diabetes.

Lisa Kroon, PharmD is a professor and chair of the Department of Clinical Pharmacy at UCSF. Her research expertise is in diabetes therapeutics and innovative pharmacy programs in community pharmacy settings. She currently practices in the UCSF Medical Center's Adult Diabetes Clinic and Diabetes Teaching Center.

Maureen McGrath, RN, MS, PNP is an Associate Professor in the Department of Family Health Care Nursing, UCSF. She has spent 20 years in clinical practice as a pediatric diabetes specialist and started the nation's first minor in diabetes for advanced practice nurses.

CME Credit Provided
