

Hypertension Control and Cholesterol Management Communications Toolkit

Looking to help more patients reduce their risks for heart attacks and stroke?

NACHC's new Hypertension Control and Cholesterol Management Communications Toolkit will equip care and quality improvement team leaders with ready-to-use content.

Elevate heart disease and stroke prevention evidenced-based clinical practices.

TOOLKIT FEATURES:

Clinician Educational Videos

- Colleague to colleague email/blog post

- customizable Social Media Templates and Graphics: to highlight success stories and current best practices.

- Community Outreach Resources: Ready-to-use materials for team huddles and workshops.

For more information, reach out to us at lwhite@nachc.com.
